## Skills

**Languages:** Javascript, Typescript, HTML, CSS/SCSS, Python

**Libraries/Frameworks:** React, NextJS, VueJS, NodeJS, Fastify, Jest, TailwindCSS

**Tools:** Git, GitHub Actions & workflows, NPM, Figma, Adobe XD, Strapi, Storybook, Chromatic

**Platforms:** GitHub Pages, Netlify, Vercel, Deepsource, LayerCI

**Other skills:** Design Systems Engineering, Community Management, Teaching/Mentoring

## Experience

MAY 2023 - PRESENT

**GitHub** – *Intern Software Engineer (Under contract with Denave India Pvt. Ltd.)*

- Built a QR generator app for GitHub Internal Team usage. Used React for frontend & **fastify** for backend and APIs. Created the UI for the app on Figma using GitHub's **Primer design system**. Integrated the QR generation with another internal **URL shortener** service for standardized QR generation. i.e. gh.io
- Worked on many UI designs and websites related to GitHub events & conferences with the DevRel engineering team.
- Worked with **GitHub-actions & workflows** for automating preview deployments, slack-integrations & project management.

JAN 2023 - MAY 2023

**Clamp (joinclamp.com)** – *Engineering Intern (Frontend)*

- Built a complete platform for buying/purchasing **digital asset indexes** and managing your crypto portfolio.
- Used **Javascript**, React, NextJS, TailwindCSS for building frontend and UI. Using Figma to design layouts and design systems.

JULY 2021 - DEC 2021

**Economize (economize.cloud)** – *Software Engineering Intern*

- Worked on a dashboard application frontend using **VueJS**, **SCSS** and **revamping** the components of the same.
- Built a complete design system for all the applications using VueJS and SCSS.
- Learned about tools and technologies such as GoLang, **Redis** and **AWS**.

## Project work

**UI Components & crafts** – [crafts.yashsehgal.com](https://crafts.yashsehgal.com)

Here is a collection of UI, javascript-heavy, tailwind based components that I call crafts. It has a collection of my front-end related work. Majorly, related to **Javascript**, **TailwindCSS** & **Core React**.
